Urine Sample Instructions

Write the name of person who gave the sample on the 20ml sample bottle.

Ensure that the lid is securely fastened.

Place the sample bottle into the protective casing. The lid should be positioned where the casing is wider to ensure a secure fit.
Urine Sample Instructions

Push in the sides of the casing to ensure it is tightly shut.

Place the sample and the corresponding paperwork into the bag.

Seal the bag by tearing off the white strip and sticking it down.
